

CONFEEE NETWORKING

Free unique networking opportunities for registered conferees.
Meet, resolve, and discuss similar interests, techniques, and problems on various topics.
No preregistration required. Check our website for more information and descriptions.

Sunday, March 6, 1:30pm – 3:30pm

Funding/Upgrading for Mid-size Equipment - Thayumanasamy Somasundaram	A409
Getting the Most of Your Pittcon Experience - Pittcon Committee Members	A405
Laboratory Safety - James Kaufman	A407
Measure and/or Predict? Perspectives on Prediction Approaches with and Versus Experiments for Research and Development Compound Analyses - Graham McGibbon/Sanji Bhal	A408
What Can You Do With 6 or 12 Channels of Data? - Paul Wilmarth/Sajol Ghoshal	A406

Monday, March 7, 10:30am – 12:00pm

Advances in Thermal Analysis Techniques and Methodology - Charles Earnest	A405
Discovering the Potentialities of Chemical Imaging in Pharmaceuticals, Environmental, Energy/Fuels, Nanotechnology, Biomedical/Biosensors, Food Science and Forensic - Giuseppe Bonifazi	A408
Mobile Phase Selection for LC-MS Analysis - Subhra Bhattacharya/Stephen Roemer	A406
Nanozymes in Analytical Chemistry and Beyond - Hui Wei	A407
Trends in Economical Lab Design - Joe Matta/James Paganelli	A409

Monday, March 7, 3:30pm – 5:00pm

Can the FDA Regulated Computer Systems Validation (CSV) Process be Expedited? - Kurt Robak	A409
ICP-MS and Chromatography for Metals Speciation - Larry Irr	A405
Non-invasive Biomedical Analysis - Standardization of Sampling and Analytical Methods - Jochen Schubert	A407
Scientific Management in a Service-Oriented World - Paul O'Connor	A408
Updated and New Part 4000 Standard Methods - William Lipps	A406

Tuesday, March 8, 10:30am – 12:00am

Analytical Techniques used in the Renewable Energy Manufacturing - Mark Janeczko	A408
Cannabis Analytical Testing Forum - Scott Kuzdzal/Terry Adams	A407
Greener Solvents and Reagents for Analytical & Manufacturing - CANCELLED	A405
Particle Size Analysis: Modern Challenges and Solutions - Jeffrey Bodycomb/Keith Swain	A406
Social Media and Science: Building Relationships for Long-term Value - Megan Cavanaugh/Luke Patterson	A409

Tuesday, March 8, 1:00pm – 2:30pm

Managing a Successful Graduate School Experience - Logan Miller	A406
---	------

Tuesday, March 8, 3:30pm – 5:00pm

Benchtop FT NMR for Education, QC and R & D - Chen Peng	A406
Choosing the Best Laboratory Improvement Project - Katherine Temple	A408
Detection Techniques for Pesticides and Contaminants in Food and Pharmaceutical Raw Materials at Ultra Low Level Detection Levels - Monika Madhav	A407
Moving Bioanalysis Sample Prep and Cleanup Forward - William Alan Marks/Scott Kuzdzal	A409
NSF Funding Opportunities - Michelle Bushey/Lin He	A405

Wednesday, March 9, 10:30am – 12:00pm

Asymmetric Flow Field-Flow Fractionation - Zsuzsanna Kuklenyik/Jeff Jones	A408
Teaching Strategies and Active Learning Resources for Junior Faculty Michelle Kovarik/Chris Harrison	A409
Quality by Design for Development of Analytical Methods - Amir Malek	A407

Wednesday, March 9, 3:30pm – 5:00pm

Assuring Water Quality - Satinder Ahuja	A409
Don't Worry, Be Hoppy – Beer Analysis - Bob Clifford	A407
LC-MS/MS Coupled Online Trypsin Design - Zsuzsanna Kuklenyik/Christopher Toth	A408

Meet France's top innovators
in industrial testing and analysis

at booths 929-930-931-933-938
