Lyn Kittle finally flew the coop from the reality associated with her diagnosis of Amyotrophic Lateral Sclerosis (ALS). We invite you to join us to celebrate her life.

As a staunch advocate for science and public health, Lyn requested that **no unvaccinated persons attend the memorial** (children under vaccination age are exempt). In true Lyn Kittle Florida style, we will have the doors wide open and warm summer breezes blowing through, please dress accordingly.

For Lyn's friends around the country and the world, there will be a livestream on the Facebook event page (<https://fb.me/e/10lLOQ0LZ>). If you have questions about how to view the event online, please contact Robin Jackson (robinjackson1224@gmail.com) prior to July 17th.
